CANTON.  
**THE DISPENSARY,**  
FOOCHOW.

THE  
**Hongkong Telegraph.**

HONGKONG, 25TH NOVEMBER, 1881.

How much lower will it be possible for our morning contemporary to descend? To what degrading depths is the *Daily Press*, known for many years throughout China as a high class journal, to be dragged to satisfy the insane designs of the Anti-Government party, for the purpose of currying favour with a clique who apparently are determined to stop at nothing in their unscrupulous attempts to blacken the official character of Sir John Pope Hennessy? The *Daily Press* has lately been guilty of many mean acts unworthy of a respectable public newspaper; but we think this latest atrocity is the most blackguardly and most contemptible of all. As a system of underhand persecution of a most malevolent character has been carried on through the medium of our morning and evening contemporaries—to their eternal shame be it recorded—against H.E. the Governor for some considerable time past, in which truth, honour, and every characteristic of honest and independent journalism have been made subservient to miserable spite and petty jealousy, we accept this opportunity of laying before the community of Hongkong, the English public at home and abroad, and the Ministers of Her Majesty's Government in London, a fair specimen of the kind of treatment to which Governor Hennessy has been subjected from the old established press of this colony during his term of office. We therefore propose to publish *in extenso* the leading article which appeared in the *Daily Press* of the 23rd inst., and then to submit to public opinion the actual truth of the matters dealt with. The leader is as follows:—

In the London *Globe* we find some details gathered from a report by Dr. Ayres, Colonial Surgeon, printed in a Parliamentary paper just published. The paper in question has not come to hand, but the extracts from the *Globe* serve to show very plainly why the two last reports of the Colonial Surgeon were suppressed. This is how our London contemporary summarizes the report in question:—

"A Parliamentary paper recently issued contains a report by Dr. Ayres, the Colonial Surgeon in Hongkong, in which the peculiarities of its dwellings are described in detail; and those who have the courage to read through his two or three pages of criticism will not be in any great hurry to take up their abode in that centre of Colonial commerce. Amongst the favourite social and domestic customs of the natives in this place is the Hibernian fashion of pig-keeping; but the Chinese householders do not limit their hospitality to this animal to the use of the dwelling-rooms. He is also admitted to the inner chambers, and is not unfrequently accommodated under the bed of his lord and master. A licence is, to be sure, required before these animals can be kept; but it seems to be pretty freely granted by the authorities, as no less than twelve pigs were counted by the medical officer in one kitchen which he inspected. The sanitary arrangements of the people are not, however, such as would

seem likely to bear with impunity such additions to the already numerous inmates of poor houses. Occasionally two houses are separated only by an open sewer about a yard wide. In other cases three or more families are stowed away in a single room, which is partitioned off for their several use. The upper floors are often made of boards which fit so badly that scrubbing is impossible, and the leakage of the second floor tenants comes down in unexpected showers upon the lodgers beneath. At the same time this species of house property remains at a high premium, inasmuch as the landlord is never expected to do any repairs. A house of three rooms, each about fourteen feet square, lets for a rent of £55 to £70 a year; and as long as it can be prevented from absolutely falling down, is the cause of no expense whatever to the owner."

His Excellency the Governor considered that the revelations made by Dr. Ayres were awkward, we presume, and rendered necessary some action on his part which he was not inclined to take. The suppression of these documents, however, can only be regarded as a miserable confession of weakness. The Colonial Surgeon, simply as a matter of duty, records a condition of things inconsistent with the maintenance of health among the native population, calculated to increase mortality, and to spread epidemics. Instead of burying the report, surely it would have been more in consonance with the duty of the Governor to have had a Commission appointed to inquire into the sanitary condition of the native town and have such improvements effected in the drainage and the construction of all new houses as sanitary science pronounced necessary. It must not be forgotten that during His Excellency's tenure of office more houses have been constructed than in any previous decade probably. Opportunities have thus been afforded of mending matters to some extent, but has it been availed of in any particular? We are not aware that any remedial measures have been adopted or that the slightest improvement has been made in the new houses lately erected. In fact, there is reason to believe that, by the greater height and closer contiguity of the new buildings, the evil has rather been aggravated than otherwise. That no dreadful epidemic has broken out and decimated the population of Taipingshan is ascribable to our good fortune rather than the absence of the germ of disease. His Excellency has more than once in the Council Chamber extolled the Chinese sanitary system, to the detriment of Western systems, and we doubt not he has done the same in his despatches to the Secretary of State. His representations can, however, have little weight against such evidence as that furnished by the Colonial Surgeon, and the fact that an independent commissioner is being sent out to inquire into the subject is indicative of the importance attached to the matter by the Downing-street authorities and of the responsibility the Governor has incurred. Indeed, we hear that His Excellency has of late received a few very severe despatches from home, and no doubt they referred to sanitary as well as other matters. However this may be, it is satisfactory to hear that the Home Government have declined to accept His Excellency's representation on the subject, and that an independent commissioner is to inquire into the matter. It would have been still more satisfactory if the necessity for the inquiry had never been created—if the reports of the Surveyor-General and Colonial Surgeon had been at once accorded the attention they deserved, and if the dangers to the public health which they pointed out had been promptly removed. It is a salutary practice of the law courts to condemn the losing party in suits, and it is almost a pity that the practice cannot be extended to disputes of this kind. The commission will involve expense, which the Colony will most probably be called upon to pay, and it certainly seems somewhat hard that the community should have to pay for the mistakes of a Governor whom they would gladly see removed, and against whose policy they have constantly protested. All this, however, must be submitted to, and the only satisfaction to be got out of it is that the Governor's tortuous system of administration is not uniformly successful. It may, possibly, be urged on the other side that until the inquiry has been held it is unfair to pronounce upon the merits of the case, and that it may turn out that the Governor is right and the Colonial Surgeon wrong. In reply to this the personal experience of the community in sanitary matters may be pleaded, while the Governor, having had resort to such a contemptible expedient as the local suppression of departmental reports, must be taken to have tacitly confessed himself in the wrong, for there can be no doubt that had he been in a position to show that the report was inaccurate he would have demolished it in a characteristic speech in Council and not have exhibited such weakness as to shelter himself behind the enforced ignorance of the community as to what was contained in it.

We specially direct attention to the definite character of the offensive charges deliberately and authoritatively made against Governor Hennessy. The mask of politeness is

thrown away, and the most damning charges which could be associated with the official conduct of a high and responsible officer of the British Crown are coarsely attributed to His Excellency, and triumphantly reiterated throughout the whole of the article. Sir John Pope Hennessy is distinctly accused of having wilfully suppressed, in order to avoid awkward revelations, certain official reports sent in dealing with sanitation and other local measures by Dr. Ayres, the Colonial Surgeon. Not only is the Governor accused of burying the special report, of which the above garbled extract from the *Globe* is a summary, but the *Daily Press* asserts that His Excellency has of late received a few very severe despatches from home, which no doubt refer to sanitary, as well as other matters. The rest of the article, as will be readily seen on reference, is a fiercely hostile attack not on Governor Hennessy's general policy, but on His Excellency himself. The whole of the *Daily Press* leader writer's argument is based on the assumption that, as a matter of fact, the Governor did suppress the Colonial Surgeon's report recently published in a Parliamentary paper, and taking this for his text, the inspired journalist improves the occasion by applying to Her Majesty's Representative all the ugly names in his extensive vocabulary. We are told it is a "great hardship that we should have to pay for a Governor's mistakes"—suppressing an official report deserves a harsher word than this—"whom we would gladly see removed, and against whose policy we have constantly protested." We are likewise informed that His Excellency's "tortuous system of administration is not uniformly successful," which is a source of much gratification to the *Daily Press*. And then we are again seriously assured that the Governor has "resorted to the contemptible expedient of suppressing departmental reports, and by so doing has tacitly confessed himself in the wrong, and exhibited the weakness to shelter himself behind the enforced ignorance of the community."

The charges made by our morning contemporary against H.E. the Governor are of the most serious character, and without undoubted proofs of their absolute accuracy should have never appeared in the columns of a respectable public journal—Are the charges true? They are entirely without foundation, absolutely false from beginning to end. Before going further we consider it advisable to prove this by our contemporary's own words. In the *Daily Press* of yesterday we read:—

"We have done His Excellency the Governor an unintentional injustice, and hasten to make the *amende honorable*. In writing yesterday on the Colonial Surgeon's report we stated that the report itself had not come to hand, and that the extract which we reproduced was taken from a London newspaper. We now find that the statements contained therein were not taken from either of the two last reports, but from that for the year 1874, which was buried, it appears, during Mr. Gardiner Austin's administration. This has been printed in its entirety in the Administrative Reports for 1879, with minutes and marginal notes."

Our contemporary has in the above paragraph, neither made the *amende honorable* for the false and scandalous statements published respecting the Governor, or done His Excellency half justice. After the column and a half of lying assertions and villainous abuse, our contemporary finds that the report referred to was buried, "during the administration of Mr. Gardiner Austin in 1874," years before Sir John Pope Hennessy came to Hongkong. It is enough to say that an unintentional injury has been done His Excellency, probably on the principle that if the scurrilous abuse was not merited in this affair, it will doubtless be deserved some other time.

Now that we have completely opened the eyes of the public to the true character of the *Daily Press*, and the real claims that journal actually pos-

sesses to the confidence of the community, as an honest, reliable, and trustworthy representative of public opinion, we can devote a slight amount of attention to the Report of Dr. Ayres, which has caused all this commotion. The Annual Report of the Colonial Surgeon for the year 1874, dated April 5th, 1875, has been printed in full with minutes and marginal notes in a volume of Hongkong Administrative Reports, and garbled extracts from the same appear in some papers laid before both Houses of the British Parliament in August last. The report is a comprehensive one, Dr. Ayres' observations concerning the health of the Colony and the different establishments under his supervision, dealing with the Police, Troops, Government Civil Hospital, Tung Wah Hospital, Victoria Gaol, Lock Hospital, Health of the Colony, and Sanitation. Our space being limited, we must reserve the publication of the Colonial Surgeon's views on the different matters dealt with in his voluminous report and our comments thereon until a more favourable opportunity, when we can deal with them in detail, and compare the state of affairs seven years ago with what actually exists at the present time. The Report was sent into Mr. Cecil Clementi Smith, who was Acting Colonial Secretary, on April 6th, 1875, and elicited the following minute from that official:—

"I think that the Government is much indebted to the Colonial Surgeon for this Report, but I do not consider that it would be in any way advisable to print it in its entirety. It contains details which should be the subject of special Reports, and is in some parts misleading."

Mr. J. Gardiner Austin, who, during the absence of Sir Arthur Kennedy, was administering the Government approved of Mr. C. C. Smith's suggestions in the following minute:—

"I quite agree with you that this cannot be printed in its entirety. I leave it entirely to your discretion to apply the pruning knife."

The result of this was that Dr. Ayres' report was "cooked" by Messrs. Austin and Smith to suit their own views, and the "pruning knife" was mercilessly applied to the whole of the remarks on Sanitation, and the more important references concerning the Tung Wah Hospital and Victoria Gaol. With these important omissions the Colonial Surgeon's Annual Report for 1874 was duly printed. The part played by Sir John Pope Hennessy in this affair will be best gathered from the following letter which appears in the printed papers laid before Parliament:—

Governor Sir J. Pope Hennessy, K.O.M.G.,  
to The Right Honourable the Earl of Kimberley.

Government House, Hongkong,  
September 17, 1880.

MY LORD.—The two special reports of the Colonial Surgeon in 1874, on the sanitary state of the licensed brothels, and on the state of the streets, lanes, and houses in certain parts of the town, and specially those parts where pigs were kept in dwelling-houses under Government license, are herewith enclosed for your Lordship's information. I was not aware of the existence of those reports until your Lordship's Despatch of 14th May, 1880, drew my attention to the Colonial Surgeon's annual report dated 5th April, 1875, which was suppressed at that time by the executive, and which I recently ordered to be printed in full, and which was laid before your Lordship in my Despatch of 15th July, 1880.

"I have no doubt Governor Sir Arthur Kennedy took steps to remedy the abuses disclosed in those various reports, but I find it somewhat difficult to trace the precise measures that he adopted. Your Lordship will observe that in his minute on the sanitary state of the licensed brothels, Sir Arthur Kennedy said:—'This is a horrible revelation.' And Mr. Gardner Austin, the Colonial Secretary, says:—'If, without exaggeration, this report reflects seriously upon the Government in respect to the past, and throws much responsibility upon it as regards the future.'"

"3.—Mr. C. C. Smith, the head of the Department, responsible for having licensed the houses in question, and for the general administration of the Brothels Ordinance, does not appear to call in question the serious statements made by the Colonial Surgeon; nor does he seem to doubt the value of the remedies sug-

gested, with the exception of the proposed inspection of the houses by the Surveyor-General."

"4.—But whatever improvements were effected by my predecessor, I cannot say that I was entirely satisfied with the sanitary work of the Colonial Surgeon and the Surveyor-General as disclosed in my own inspection of public institutions, more especially within their province as health officers, and of the streets and lanes in the Chinese quarter of the town. On the other hand, duties have been thrown upon these two gentlemen, which under laws of the Colony, should have been performed by other officers specially designated for sanitary work.—I have, &c.,  
(Signed) J. POPE HENNESSY.

It would therefore appear that instead of suppressing the now famous report of the Colonial Surgeon, our present Governor was actually the means of having it printed and brought directly under the notice of the Secretary of State for the Colonies, and both Houses of Parliament. Instead of receiving unjustifiable censure for what he never did, His Excellency has firmly established his claim to a very large meed of praise for what he has actually accomplished against bitter opposition and ceaseless persecution, to remedy many of the grievances pointed out by Dr. Ayres. We are glad to notice in the Parliamentary Papers that Governor Hennessy's action in that most abominable practice followed by the officers of the Registrar General's Department under the Brothel Ordinance in the detection of unlicensed prostitution, namely, the employment of informers, has received the warm approval of Her Majesty's Government. In a despatch dated, July 26th, 1881, Earl Kimberley says:—"The system of informers paid to obtain evidence by personal intercourse with women, which was introduced in 1860 simultaneously with the appointment of inspectors, was a revolting abuse which you most properly put a stop to as far back as the month of October 1877." With regard to another matter which has attracted a great deal of attention in England, the cruel treatment of prisoners in gaol, the Annual Report of the Howard Association—an admirable institution, the members of which are men of rank and standing, including a large number of M.P.s—says:—"Another example of this (cruel treatment of prisoners) was afforded by the barbarisms of criminal treatment at Hongkong, until the noble-hearted Governor Pope Hennessy braved the opposition of selfish and inhuman colonists, and effected a practically successful reform of the system." We could quote dozens of instances in which His Excellency's enlightened policy, during his government of this Colony, has elicited the admiration and approval of some of the greatest men of the century, men whose judgment is neither to be misled or influenced by selfish aims; but as we have already taken great liberties with our limited space one more extract must suffice to show the estimation Governor Pope Hennessy is held in by those who are in a position to appreciate his thorough consistency in the cause of progress, for the amelioration of those whom fate has placed under his government. At a meeting of the City of London Committee, held in January last under the presidency of Samuel Morley, M.P., a resolution was unanimously passed which honours Governor Hennessy as few public men have ever been honoured. We quote but one paragraph which says that:—"His Excellency the Governor, in particular, deserves the grateful acknowledgments of all who value liberty, purity, humanity, and the righteous administration of English Law." This was no Exeter Hall conclave, but a body of gentlemen whose names are honourably known as living monuments of England's greatness. In addition to Samuel Morley, there were present Sir Thomas Chambers, Q.C., M.P., Recorder of the City of London; Sir Charles Reed, L.L.D., F.S.A., Chairman of the London School Board; Sir Andrew Lusk, Bart., M.P.; Sir Francis Lycett; William McArthur,

M.P., S. D. Waddy, Q.C., M.P., A. McArthur, M.P.; John Holmes, the celebrated Radical member for Hackney, and many other gentlemen equally well known to fame. Most of these men are Governor Hennessey's political opponents, but political differences are forgotten in doing honour to a Governor, who, in spite of factious local opposition, has proved himself by his advanced and statesmanlike policy to be far and away the best Governor ever sent to Hongkong.

The recent troubles in New Zealand would appear to be abating. Affairs in that colony are reported to have assumed a more pacific character.

Count de Korospotak has been appointed Minister of Foreign Affairs for the Austro-Hungarian Empire, in succession to the late Baron Haymerle.

We hear that an attempt to raise the steamer *Pakhoi* was to be made yesterday. No information as to the result of the trial has yet reached us.

Her Majesty's youngest son, Prince Leopold has been betrothed to the Princess Helene of Waldeck. We need scarcely say that Waldeck is a German principality, with a population of about one third that of Hongkong.

We learn from the Agent that the Pacific Mail Company's steamship *City of Rio de Janeiro*, with the American Mails, left San Francisco for Yokohama and this port on Tuesday last the 22nd inst.

The steamship *Kwangtung* undocked at Aberdeen this morning. The *City of Tokio* will go round to the Hope Dock in the course of the afternoon. The British ship *Agnes Muir* will be docked of Kowloon to-night.

A telegram from London dated the 23rd inst. states that arrangements have been made for a resumption of negotiations to settle the Treaty of Commerce between Britain and France about the middle of December.

The adjourned inquest on the body of the man William Lucas, a seaman on board the ship *Lothair*, was resumed at the Magistracy yesterday afternoon. After hearing evidence as to identification, the jury returned a verdict of "Found drowned."

Ireland has not yet "calmed down." A telegram was received from London yesterday to the effect that outrages are gradually reviving in Ireland. The *Times* devotes a leader to the subject, and announces that the general situation is disappointing and disquieting.

The French frigate *Thémis*, Captain Alquier, bearing the flag of Rear-Admiral Duperré, arrived here this morning from Shanghai, which port she left on the 21st inst. The *Thémis* saluted shortly after she dropped anchor, which was promptly acknowledged.

The well known race-pony Tam O'Shanter, winner of the Valley Stakes and Exchange Plate at our last Hongkong Races, arrived from Manila by the steamship *Esmeralda* this morning. Tam O'Shanter, now the property of a well known Manila sportsman, joins Mr. Gordon's team.

A parade and inspection of the Government Fire Brigade was held yesterday afternoon by the deputy superintendent Mr. Carvalho. There was, as usual, a large muster of firemen. After the inspection, the engines were taken to the Praya where a very satisfactory practice was held.

About three months ago our excellent evening contemporary, the *China Mail* appointed Sir Henry Irving to the Governorship of Hongkong. We presume Sir Henry's appointment by the *Mail* was not ratified at Downing Street! In any case the enterprising organ of the missionaries has again come up smiling to the scratch, and undeterred by past rebuffs, appoints Sir George F. Bowen, or Sir William C. F. Robinson, as Governor Hennessey's successor. The *China Mail* has appointed nearly the whole of the colonial officials available for this post, so that we must get the straight tip one of these days.

The House Property case, *Da Rosa v. Ho Atim* came on before the Full Court yesterday afternoon. Mr. Francis, instructed by Messrs. Stephens and Holmes, moved *ex parte* on behalf of the defendant for a rule nisi calling on the plaintiff to show cause why the order of 17th November, 1881, should not be set aside. The subject of the motion was to compel the plaintiff to annex to his petition a copy of the contract on which he brought the action. Mr. Francis contended on behalf of the defendant that the contract would at once disclose that the plaintiff had no cause of action, so that if it were made part of the petition the defendant could move to have it dismissed, which would save the expense and delay of a trial in ordinary course. The cause of action alleged in the petition was that by an agreement entered into between the parties, dated 20th September, the plaintiff agreed to sell and the defendant to purchase a piece of ground at the price of \$2.75 per square foot, and that the defendant should thereupon pay the sum of \$5,000 as deposit. The plaintiff sought to recover this \$5,000, whereas, according to the defendant's case, if the agreement were set out it would instantly appear that he had never agreed to pay any deposit at all. The rule was made and further time allowed to answer.

#### TRAINING NOTES.

The weather this morning was simply delightful, but strange to say only a very small number of "sports" turned up at the race course. Those who stayed away missed a treat, as advantage was taken of the good going by most of the trainers to "pow" their subscription griffins. It is a very good plan to waste no time before finding out what your ponies are actually made of, and there can be little doubt that these preliminary trials, while the animals are in the rough, prove very valuable to trainers, by indicating either the merits or defects of the ponies, so that the course of training best suited to the special requirements of each may be adopted. We are reluctantly compelled to admit that the subscription griffins—in the rough—or at least those we have seen galloped, are anything but brilliant specimens of the genus racer. Three or four move along in fair form, but the majority are "Dead Sea fruit." Of course a few weeks' training may improve matters wonderfully, but it is hardly likely that the Derby winner will spring from the subscription mob. Our Canton correspondent sends us a very glowing account of three griffins located at the City of Rams under the care of Vicomte D'Arnoux, and we are quite prepared to see the chesnut in this team turn out something better than the ordinary run. The plying this morning appeared to give lively satisfaction to most of the owners concerned. Mr. Henry's smart little brown again exhibited good form, and the dun and black in Mr. W. M. Morgan's stable covered the ground at a fair pace. Mr. Paul's team had a sharp burst, both the black and the cream going well. The flea bitten grey in the same lot raced down the straight with one of Mr. Gordon's greys, and had all the best of a slogging finish. Mr. Theo's white, ridden by the "Horse," galloped in company with one of Mr. Henry's and pulled over his opponent all the way. Mr. Grammont's team trotted and cantered, in much improved form to that previously exhibited, a sturdy grey, ridden by the owner, being to our way of thinking the pick of the lot. Mr. E. M. Barretto's dark grey, and Mr. Gordon's Lochiel, galloped separately, and Souter Johnny and Langayne had a sharp burst up the Black Rock hill, the chesnut pulling over the subscription pony all the way. The old ponies Dauntless and Lord of the Isles did quiet work, both of the "crops" having apparently got over their lameness. Mr. Tripp has got the training course in good condition, and no doubt he will be able to keep it in galloping order throughout the season.

A duel with swords was fought at Malmesbury between the Prince de Chimai, a Belgian Deputy, and M. de Beville, editor of the Gambettist journal, *Henri IV*. After five rounds, M. de Beville was seriously wounded in two places, and the surgeon stopped the fight.—*L. & C. Express*.

#### SAMOA.

News has been received from Apia, via Fiji, to the effect after the late war excitement, the natural reaction appears to have set in. Two accidents have happened through a careless use of dynamite. The natives who were located at the forts, and others who had left their districts during the war, have now nearly all returned to their respective homes. House building and food planting seems to be the order of the day. Some disquieting rumours arose as to the position of the Itutu-tane, but the reports were not sufficiently authentic to warrant much reliance being placed on them. The activity in business which followed the close of the war has now died away and nothing is doing; the low price of copra intensifies the dullness, and unless an improvement in the state of matters shortly takes place, business in Apia will be reduced to a lower ebb than has been experienced since its establishment as a commercial centre. Captain Brown, of the *Sirocco* reports that business is much impeded at Tahiti owing to the high tariff placed by the French authorities on all classes of imports.—*Sydney Morning Herald*.

#### COMMERCIAL INTELLIGENCE.

##### THIS DAY, One P.M.

The only business transacted in the share market since our last issue has been in connection with Docks. We stated yesterday that the stock was firm, with an upward tendency, and our anticipations that a rise in the price current was imminent have been verified to the letter. Something like 400 shares were sold at 25 per cent. premium, and then the supply immediately ceased. Buyers offered 26, and then 27, but still no shares were forthcoming. Various attempts have been made this morning to renew negotiations, but so far as we have been able to ascertain not a single share has changed hands. The subjoined quotation, 28 per cent. premium, may be accepted as the present market rate, and we doubt not that business will be done at that rate during the course of the afternoon. No other stock has been inquired after.

##### SHARES.

Hongkong and Shanghai Banking Corporation—112 per cent. premium.  
Union Insurance Society of Canton—\$1,625 per share.  
China Traders' Insurance Company—\$1,575 per share.

Builder's Hardware material, Sporting Guns, Revolvers and Sporting ammunition. Sailmaking and Rigging promptly executed.

## TELEPHONE EXCHANGE.

**THE GREAT NORTHERN TELEGRAPH COMPANY** (amalgamated with the **ORIENTAL TELEPHONE COMPANY, Limited**, as regards Telephone Lines in Hongkong and China) with transfer of Alexander Graham Bell, Arrhild White, Frederic Gower, & Co., & Co.

**BELL AND EDISON'S SYSTEM.** Permission having been granted by the Government to establish a Telephone Exchange in Hongkong, the above Company hereby beg to invite Subscriptions from the Public.

Throughout Europe and America Telephone Exchanges have gained such a reputation by facilitating daily intercourse and by ensuring the safety of private and public property, that they may now be considered indispensable in all large Cities and Business Centres. Hongkong with its vast commercial transactions and valuable property, is essentially a place, where a well conducted Telephone Exchange will be of the greatest use, and in laying this Prospectus before the Public, the Company hopes that it may count upon the general support not only of the merchants and professional members of the Community, but also of the different Government Departments in order to render the service as efficient as possible.

The Exchange will be worked in the following way, viz.: a head Office will be established in the central part of the town provided with the best Telephone appliances according to the newest and most approved European and American inventions. Each subscriber will be supplied with a complete set of Instruments and will be put in direct communication with the central office by separate wires.

When wishing to use the Telephone, a Subscriber will only have to call the Central Station and give the name of the party, he wishes to speak with, the wires are then immediately switched together, and the two Subscribers will be in direct communication with each other. When they have finished, the Central Office is notified to that effect by a Bell Signal, the wires are then disconnected, and any other connection can be made if desired and so on. The dialogue between the subscribers is of course quite private and can only be heard by the two parties concerned. It should distinctly be understood, that the message are not spoken to the Central Office, and thence transmitted to the person to be communicated with, but the two wires are simply switched together, thus forming one continuous line, over which conversation can be carried with perfect ease and privacy.

The Central Office will, if practicable, be open to the general public so that any person can thence communicate with the Subscribers. For this service non-subscribers would have to pay a small fee according to the time they occupy the wire.

The Telephones used by the Company are the Combination Bell-Edison. These Instruments which are far superior to all other Telephones on account of their great distinctness of sound combined with easy management, have met with unrivalled success throughout the world, and are now also adopted by the British Government Departments in England and India.

The subscription fee will to some extent depend upon the number of subscribers, but the price will not exceed \$150 per annum for town subscribers. The following boundaries will be taken as terminating the town, viz.: West.—The Gas Works. East.—Police Station No. 2. South.—Caine Road and Kennedy Road, etc. Subscribers outside these limits would have to pay a proportionally higher charge according to the length of wire required and the difficulties to be overcome in constructing and maintaining the line. The subscription will be binding for one year, payable quarterly in advance.

All maintenance expenses of Instruments and wires are included in the above price, and the subscribers will have nothing to pay beyond the fixed annual charge.

The Central Office will be under competent supervision, and an efficient staff of clerks will be in attendance during office hours.

The Company will also undertake to make private arrangements for persons wishing to be in direct communication with their offices, godowns, etc., and to take over the maintenance of such lines at reasonable charge.

In order to expedite the work, subscribers are requested to send in their names to the undersigned agent at an early date.

Should sufficient support not be received, the Company is not bound to establish the Exchange.

A. SUENSON,

Hongkong, November 11th 1881.

To the Superintendent  
Great Northern Telegraph Co.

Kindly place name in the List of Subscribers to the Telephone Exchange.

Yours faithfully,  
Signature .....  
Address .....

## NEW DIRECTORY FOR THE FAR EAST.

A NEW DIRECTORY FOR  
CHINA, JAPAN, AND THE  
PHILIPPINES,

FOR THE YEAR 1882,

WILL BE PUBLISHED,

**PRICE TWO DOLLARS,**

ENTITLED

"THE HONGKONG DIRECTORY  
AND HONG LIST FOR THE  
FAR EAST."

THE above work will be published on the 1st of January next, at the office of this Paper, and will contain a Directory for the Ports in the large portion of Asia comprised between Penang, in the Straits Settlements, and the Northern Ports, including Formosa; the Treaty Ports of China and Japan; the Philippine Islands; the British Colony of Hongkong; and the Portuguese Colony of Macao. The work will also contain the Principal Treaties between European countries and the United States and the countries East of the Straits, together with conditions of Trade, and the Port, Customs, Consular and Harbour Regulations for the Ports of China and Japan; and a description of the Ports, with the latest Trade Statistics taken from the Reports of the Imperial Maritime Customs and other reliable sources.

The various Governments and Municipal Corporations will be applied to for information, and all Public Bodies and Companies, Bankers, Merchants, Consuls, and Professional and other Residents, will supply the necessary matter to ensure correctness upon forms sent for that purpose. The Naval and Military portions will be taken from the latest published official lists and revised at Head-quarters; in fact no pains will be spared to make "THE HONGKONG DIRECTORY AND HONG LIST FOR THE FAR EAST" a perfectly reliable *vaude meum*.

It is intended to make this work a medium for Advertisers at a cheap rate, and the charge for Advertisements will be

**\$10 per page in Hongkong,**  
**and \$12 at Outports.**

The size of the Page will be SEVEN INCHES AND A HALF LONG by FOUR INCHES AND THREE-QUARTERS; this space will admit of a large quantity of matter and all Advertisements will be tastefully and prominently displayed. Blocks of any description will be inserted, but these must not exceed the above dimensions.

"THE HONGKONG DIRECTORY AND HONG LIST FOR THE FAR EAST" will, in order that it may circulate extensively outside this Colony, be published at a POPULAR PRICE, and can be ordered at this Office or obtained from the Agents (list to be hereafter published) for

**TWO DOLLARS.**

There is not space in the compass of an ordinary advertisement to detail all the mass of information it is intended to introduce into the work, but it may be fairly asserted that no such Directory has ever been published, either in Hongkong, or any other part of the East, at the price.

"Telegraph" Office, Hongkong,  
October 1st, 1881.

## SHIPPING IN HONGKONG HARBOUR.

Exclusive of late arrivals and departures this morning.

In this table the anchorage of Hongkong Harbour is divided, for purposes of reference, into five sections:—No. 1 extending from Green Island to the P. and O. Company's Wharf; No. 2 from the P. & O. Company's Wharf to the Canton and Macao Steamboat Co.'s Wharf; No. 3 from the Canton and Macao Steamboat Co.'s Wharf to the Government Wharf; No. 4 from the Government Wharf to the Wanchai Pier; and No. 5 from the Wanchai Pier to Kellett's Island.
